MEMORABLE EXPERIENCE

When I think about my most memorable experience at Careworks, I think about the people. I have been fortunate to build friendships with colleagues I have known since I began with Bradley as well as many others I have met through the years. I value the opportunity to collaborate with colleagues across the country and learn from people with different experiences and perspectives.

A standout experience for me was traveling to Maryland to meet our SGS colleagues after collaborating on an onboarding. That experience reminded me how strong connections and collaboration can help us achieve great things, no matter where we are located.

POWER OF CHOICE

For me, the power of choice is about choosing how I show up each day. I may not get to control every situation I face, but I can choose how I respond. I try to listen to and understand others' points of view, remain positive, and look for opportunities to improve our processes so we can better support our colleagues, clients, and injured employees. Whether I'm helping someone work through a challenge, finding a better way to do something, or simply taking the time to make sure someone feels heard, I want my choices to have a positive impact.

"I feel fortunate to have grown alongside this department and organization over the years."
